What is a Commander CDE/CDLE ?

The Commander CDE series was a digital AC motor speed control manufactured by Control Techniques. It was available in several models that could control 3-phase motors from 1 to 150HP. The input was 3-phase with input voltage ranged from 200 to 240 VAC or 380 to 480 VAC +/- 10%. Horsepower ranged from 7 ½ to 60 @ 230VAC for CDLE models and 15 to 150 @ 480VAC for CDE models.

0.75kW to 11kW Manual

11kW -90kW CDE/CDLE Manual

What replaces the Commander CDE/CDLE?

The Commander SK series can replace the Commander CDE series in the range of 7 ½ Hp to 10Hp @ 230VAC and 15 to 150Hp @ 480VAC in most all applications. The Commander SK offers many more internal features and can be setup using your Laptop PC. No pots to adjust or jumpers to set. The Software is **free !**

SM-I/O
Lite

Commander SK
family

For some larger model CDEs the SM-I/O Lite module may be required. Consult technical support for further details.
