What is an ES220?

The ES220 Electrostat (1110) series was a popular 3 phase analog DC motor speed control manufactured by WER Industrial(later Emerson Industrial Controls) from approximately 1973 to 1983. It could control DC motors from 1HP to 20HP.

What replaces the ES220?

We regularly replace ES220 drives with our Quantum III series. Quantum III's are state-of-the-art Digital Drives that offer many more internal features and can be setup using your Laptop PC. Software for the Quantum III (called MentorSoft) is free !

To obtain the software for the Quantum III click
