

Upgrade Solution

What is an ES222?

The ES222 Electrostat (1110) series was a popular 3 phase analog DC motor speed control manufactured by WER Industrial (later Emerson Industrial Controls) from approximately 1973 to 1983. It could control DC motors from 5HP to 20HP.

What replaces the ES222?

We regularly replace ES222 drives with our Quantum III series. Quantum III's are state-of-the-art Digital Drives that offer many more internal features and can be setup using your Laptop PC. Software for the Quantum III (called MentorSoft) is free !
